

# Hose Type 25/2W

ID25 - Series: T

## Applications

### Hydraulics:

Pressure test equipment (valves, tooling and control panels), hydraulic tools (instrumentation packages for gauges, control of service equipment, hydraulic jacks, hydraulic tools)

### Oil and Gas:

Grease injection, control of subsea hydraulic components, nitrogen service, Gaseous media handling

## Technical Information

### Inner Core:

Polyamide (PA)

### Pressure Support:

2 open layers, 2 dense layers of high-tensile steel wire

### Outer Cover:

Polyurethane (PUR)

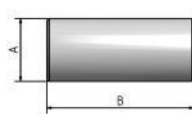

### Colour:

Black

### Temperature:

-30°C to +60°C [-22°F to 140°F]

Ø ID	Ø OD	Working Pressure (SF 2.5:1)	Burst Pressure	Bend Radius	Weight	Insert ID

Production-related variations of the burst pressure of up to 5 % are possible. Other colours upon request.

The safety factors between the burst pressure and the working pressure as well as the test pressure depend on the operating conditions. For gaseous media the outer cover is to be pinpricked.

Regarding the safety factor for gaseous media please contact your local SPIR STAR® assembling center.

The indicated working pressure refers to the hose only. Depending on the used fitting the permitted working pressure of a hose assembly may be less.

\*) Blast-Pro® fittings may only be used for tube cleaning operations inside the tube. They have not been designed for the use outside of tubes.
